

Land Use Permit Expedited Review Fees

Per KMC 5.74.090 an applicant may request to have a land use permit application reviewed within an expedited time frame. There is an additional charge if the Planning Department approves the request. Approval is dependent on current staff availability to conduct expedited reviews.

Currently, there is a \$2,070.00 fee for expedited review. This fee includes 23.5 hours for the Planning Department's review of the permit(s), and a 3.5% technology surcharge. The reviewer will track actual hours spent; if additional time is spent, then the balance will be owed prior to permit issuance.

The expedited review fee is separate from the land use permit and building permit fees, or any other fees associated with the permit.

Permit name/number: Jefferson House Short Plat, SUB16-00050

Owner/Agent signature required: _____

Date: 04/25/2016

Department Approval
